

Data Sheet

Platon Plaster Mesh

Description

- HDPE membrane with integrated mesh layer for direct plastering
- For internal application on walls above or below ground level
- Compatible with other Platon membranes

Specification

In accordance with NBS Specification J40 (clause 290) -
Flexible Sheet Tanking/Damp Proofing

Technical Data

Roll size:	2.0m x 20m x 8mm
Studded Sheet thickness:	0.7mm
Stud height (net)	8mm
Unit weight:	70g/m ²
Compressive Strength	150 kN/m ² (15t/m ²)
Service temperature range	-40°C to +80°C
Life Expectancy	at least 50 years
Air Gap volume	5.5 litre/m ²
Colour	Clear
